The most efficient HVAC solution in the market

We are **experts in HVAC control and regulation** with 20 years of research and development, bringing the utmost comfort to more than a million users worldwide.

Zoned AC units

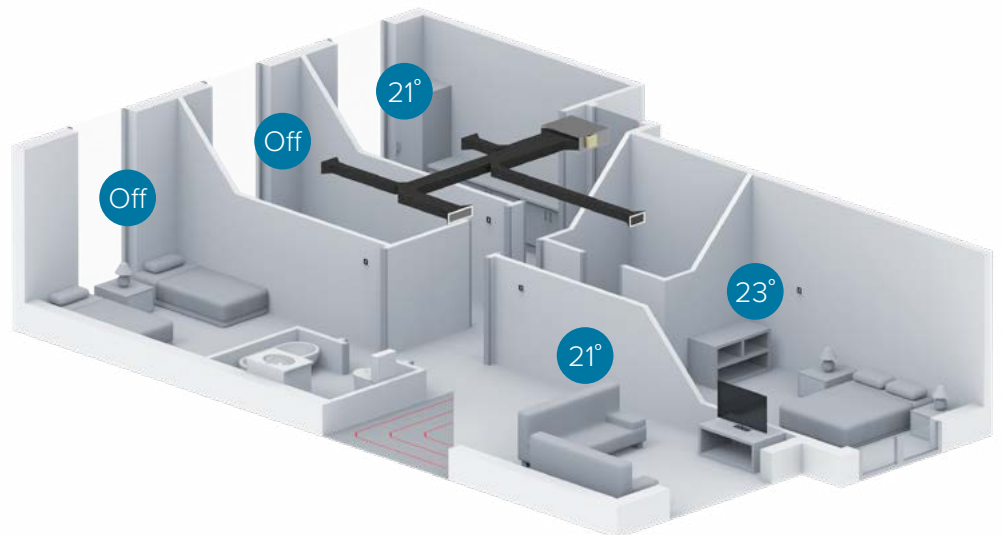

Hot/cold air

Radiant heating

Remote control

FLEXA 3.0 SYSTEM

AIRZONE THERMOSTATS

As the core of the system, it manages and executes all the commands. **Easily integrated with BMS systems** (Home Automation) thanks to the **Airzone communication gateway**.

Enjoy smart temperature control in the home or office, with Airzone interfaces. **A smart thermostat in each room** to set the ideal temperature.

Set the bedroom at 25°C

Airzone Cloud

Transform your smartphone or tablet into a smart thermostat. Enjoy full control.

- Select the **perfect temperature for each room**.
- Program your system **anytime, anywhere**.
- **Check the local weather** forecast.

Are you ready to enjoy smart HVAC control?

Access the demo at the website airzonecloud.com

AIRZONE

Enjoy **different temperatures in different zones**.
Control your consumption by turning the zones on
and off whenever you want.

A whole new level of energy efficiency and control

Independent temperatures

Choose **the perfect temperature for each room**. The best solution to the varying needs of different users.

Economic savings

Reduce the consumption of the system by zoning: **turn on only the zones you actually use**.

Comfort

Get the utmost comfort with one ducted unit and enjoy the convenience of zoning.

Latest BMS/HA

Connect your Airzone system easily to **the most popular BMS/HA on the market**.

Energy efficiency

Our **energy-efficiency algorithms** promote the rational use of energy while getting the most out of the system.

High quality

Recommended by the top AC manufacturers around the world. **20 years of experience at your service**.

Innovative design

Smart thermostat with high-technology capacitive screen. Finished in zamak steel and glass, it is the perfect balance between design and control.

Cloud technology

Control the temperature of your home from your smartphone. Enjoy an up-to-date system 24/7 thanks to Airzone Cloud.
